Data Collected: 10/06/2008 - 10/07/2008

Release Date: 10/08/2008

Paulsen and Madia Do-Si-Do in Minnesota's Fiercely Fought 3rd Congressional District: In an election for the open seat in the United States House of Representatives from Minnesota's 3rd Congressional District today, 10/08/08, one month to Election Day, DFL Party candidate Ashwin Madia and Republican Erik Paulsen battle for every vote, according to a SurveyUSA poll conducted exclusively for KSTP-TV in Minneapolis. Madia and Paulsen finish today inside the survey's margin of sampling error, effectively even, 46% for Madia, 43% for Paulsen. In an identical SurveyUSA poll one month ago, Paulsen was nominally ahead, inside of the margin of sampling error. Today, Madia is. Paulsen leads among men. Madia leads among women. Paulsen leads among voters age 18 to 49. Madia leads among voters age 50+. Each candidate retains 86% of his party's voters; independents split. Conservatives break 8:1 for Paulsen; liberals break 8:1 for Madia; moderates back Madia 5:3. Obama and McCain tie in the district. Madia runs 3 points weaker than Barack Obama in the district. Paulsen runs 4 points weaker than John McCain. Madia is viewed favorably by 39% -- up 10 points over the past month. Republican Paulsen is viewed favorably by 33%. Retiring 9-term Republican congressman Jim Ramstad is viewed favorably by 58%. In MN3, 10% approve of the job that the US Congress is doing. 28% approve of the job that President George W. Bush is doing.

Filtering: Minnesota's 3rd Congressional District forms a crescent around the western Minneapolis suburbs and is one of the most affluent in the state. Incumbent republican Jim Ramstad is not seeking a 10th term. George W. Bush received 51% in the district in 2004. 700 registered voters were interviewed 10/06/08 and 10/07/08 using Registration Based Sample from Aristotle of Washington DC. Of the registered voters, 634 were determined by SurveyUSA to be likely to vote in November.

1 If the election for President were today, would you vote for ... (choices rotated) Republican John McCain? Or, Democrat Barack Obama?

** Too few respondents of this type were interviewed for this data to be meaningful.

Statement of Methodology: The following statement conforms to the principles of disclosure of the National Council on Public Polls: How this poll was conducted: This SurveyUSA poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. Within the report, you will find: the geography that was surveyed; the date(s) interviews were conducted and the news organization(s) that paid for the research. The number of respondents who answered each question and the margin of sampling error for each question are provided. Where necessary, responses were weighted according to age, gender, ethnic origin, geographical area and number of adults and number of voice telephone lines in the household, so that the sample would reflect the actual demographic proportions in the population, using most recent U.S. Census estimates. In theory, with the stated sample size, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than theoretical calculations of sampling error. These include refusals to be interviewed, question wording and question order, weighting by demographic control data and the manner in which respondents are filtered (such as, determining who is a likely voter). It is difficult to quantify the errors that may result from these factors. Fieldwork for this survey was done by SurveyUSA of Verona, NJ.
