3M Statement

“3M has great respect for the brave men and women who protect us around the world and their safety is a priority. We have a long history of partnering with the U.S. military, and we continue to make products to help protect our troops and support their missions. The company worked in close coordination with the U.S. military on the Combat Arms Earplugs version 2 product and its design reflected the direction and feedback of individuals acting on the military’s behalf. We deny this product was defectively designed and will vigorously defend against the allegations in these lawsuits through the legal process.”
